

## Wallpaper\* Handmade at Leclettico

It's the blockbusting show of the week. Wallpaper\* has again assembled an international cast of star designers, craftsmen and makers to create a spectacle, epic in scale and ambition.

This year's marvels include:

Brunno Jahara's folding chair and other woollen wonders

---

Gaia & Gino's enlightening light show

---

Verreum presents a glass masterclass

---

Architectural grand master Richard Meier's chess set

---

Naoto Fukasawa's umbrella for life

---

Michael Anastassiades' miraculous marble chips

---

A bar-raising (and pulse-raising) coffee stop

---

Harry Winston's box of tricks

---

And a kayak that will really float your boat
